

ADDENDUM NO. 1

Joint Antelope Valley Authority (JAVA)
State Project STPC 34-6(135) Control No. 11215i
JAVA Project 880104
City of Lincoln Project 780104
Specification No. 07-219
O Street Bridge and Roadway Project
21st to 23rd Street
July 20, 2007

TO ALL PROSPECTIVE BIDDERS:

Bidders are instructed to attach this Addendum No. 1 to the inside cover of the contract folder and to **sign and fax this page back to Mary Lowe (402-441-6576)** as evidence that this Addendum No. 1 has been received. Failure to do so may result in rejection of the Bid.

Company/Contact Person

The Contract Documents and Specifications for the above project is amended as follows:

ADDENDUM NO. 1
Joint Antelope Valley Authority (JAVA)
State Project STPC 34-6(135) Control No. 11215i
JAVA Project 880104
City of Lincoln Project 780104
Specification No. 07-219
O Street Bridge and Roadway Project
21st to 23rd Street
July 20, 2007

1. Refer to the Contract Documents – Proposal for Contract Construction Work – Schedule of Items (Bid Form)

Delete the “Schedule of Items (Bid Form)” in its entirety and replace with the attached “Schedule of Items (Bid Form)”.

Note: New bid items have been added and the item numbers have changed accordingly.

The following quantities have been revised:

Pavement and Sidewalk Removal has decreased from 3,209 CY to 2,551 CY

Asphaltic Concrete Surface Course for Arterial Streets has decreased from 1,529 Tons to 47 Tons

Temporary Surfacing has increased from 400 SY to 3,240 SY

The following new pay items and quantities have been added:

Temporary Asphalt for Transitions & Sidewalks, 197 Tons

Temporary Shoring at Sta. 1215+65, 1 Lump Sum

Temporary Shoring at Sta. 1216+65, 1 Lump Sum

Temporary Shoring at Sta. 1220+35 – Sta. 1225+30, 1 Lump Sum

2. Refer to the Contract Documents – General Notice – Page 1

Delete the following: “Bidders desiring clarification or interpretation of the specification documents shall make a written request which must reach the Purchasing Department by July 27, 2007, twelve o’ clock (Noon) via fax, mail or email.”

Replace with the following (due to a date change):

“Bidders desiring clarification or interpretation of the specification documents shall make a written request which must reach the Purchasing Department by July 25, 2007, twelve o’ clock (Noon) via fax, mail or email.”

3. Refer to FHWA Documents – Use of Disadvantaged Business Enterprises, Pages 1 thru 15

Delete the FHWA document “Use of Disadvantaged Business Enterprises – Pages 1 thru 15 in its entirety and replace with the revised (Rev. 7-6-07) FHWA document “Use of Disadvantaged Business Enterprises – Pages 1 thru 16”.

4. Refer to the Special Provisions

Add the following Special Provision:

Storm Water Pollution Prevention Plan

The Contractor shall understand the terms and conditions of the general National Pollutant Discharge Elimination System (NPDES) permit that authorizes the storm water discharges associated with the industrial activity from the construction site. For reference, the general permit is posted on the Department’s website.

Additionally, the Contractor, as evidenced by their signature on this proposal, agrees and understands that, if awarded the contract on this project, he/she:

1. becomes a co-permittee, along with the owner(s), to the Nebraska Department of Environmental Quality NPDES General Permit for Storm Water Discharge from construction sites on this project;
2. is legally bound to comply with the Clean Water Act to endure compliance with the terms and conditions of the storm water pollution prevention plan and developed under the NPDES permit and the terms of the NPDES permit; and
3. will hold the owners harmless for damages or fines arising as a result of noncompliance with the terms if the storm water permits and authorizations associated with the work on this project.

5. Refer to the Special Provisions

Add the following Special Provision:

TEMPORARY ASPHALT FOR TRANSITIONS AND SIDEWALKS

The Contractor shall furnish and construct temporary asphalt to transition from the ends of the temporary road surfacing to match the existing pavement along “O” Street as directed by the Engineer. The Contractor shall also construct temporary sidewalks using temporary asphalt at the locations shown on the plans and as directed by the Engineer.

The mix design for the temporary asphalt to be used for construction of the temporary transitions and sidewalks shall be designed by the Contractor and submitted to the Engineer for

approval prior to the start of work on the project. The mix design shall generally follow the requirements outlined in the City of Lincoln Standard Specifications and the following guidelines:

1. Asphaltic Cement must be an NDOR approved brand of PG 64-22 or better.
2. Asphaltic Cement content shall be between 5% and 6% by total weight of the mix.
3. Aggregate blend must contain at least 85% crushed materials, no more than 80% limestone, no more than 10% passing the #200 sieve and nominal maximum coarse aggregate size of 1/2" or smaller.
4. Recycled Asphalt Pavement (RAP) mixes may be used with the approval of the Engineer.
5. The Contractor shall provide the mix design to the Engineer for review and approval prior to proceeding with construction of the temporary asphalt.

The Contractor shall be required to furnish, construct and maintain the temporary asphalt transitions throughout the course of the construction. Any repairs or replacement of temporary asphalt material due to failure of the material or improper construction shall be promptly completed by the Contractor to minimize impacts to the traveling public. All costs associated with repairs or replacement of the temporary asphalt during the course of the project shall be borne by the Contractor. The Contractor shall also remove all temporary asphalt at the completion of the use of the facilities and all costs associated with the removal shall be included in the bid price for the temporary asphalt.

Temporary asphalt shall be measured and paid for by the ton in accordance with the unit price bid for the pay item "Temporary Asphalt for Transitions & Sidewalks". Said payment shall be full compensation for furnishing all labor, tools, equipment, materials and incidentals required to construct the temporary asphalt transitions and sidewalks at the locations shown on the plans and as directed by the Engineer, maintain the temporary asphalt and remove the temporary asphalt at the completion of the work or use of the temporary facility.

6. Refer to the Special Provisions, Erosion Control Mat

Add the following paragraphs to the Erosion Control Mat Special Provision:

Where specified on the plans, Erosion Control Type B shall be a rolled erosion control mat that is listed on the current Nebraska Department of Roads Approved Products List for "Erosion Control Class 1, Type B".

7. Refer to the Special Provisions, Temporary Surfacing

Add the following paragraphs to the Temporary Surfacing Special Provision:

The pay item for the full depth pavement at the temporary roadway shall be "Temporary Surfacing". All concrete used for temporary surfacing shall be City of Lincoln L3500 mix. If the Contractor proposes to use asphalt at the temporary roadway, then they shall submit the proposed mix design to the Engineer for review and approval prior to start of the work. The asphalt mix for surfacing at the temporary roadway shall be a commercial grade mix conforming to the requirements outlined for the Temporary Asphalt for Transitions and

Sidewalks, and shall be designed to perform under high vehicular traffic volumes including heavy truck traffic.

The Contractor shall maintain and repair all temporary surfacing at the temporary roadway and all other locations throughout the course of the project at their expense. No additional payment will be made for work associated with repair or replacement of temporary surfacing that fails or is determined by the Engineer to be unsuitable to carry public traffic. The Contractor shall promptly repair or replace all damaged or failed temporary surfacing as directed by the Engineer.

8. Refer to the Plans, Typical Sections Sheet 2-T3

Delete the reference to item number 6 and the note specifying 8" Pavement in the typical section for the "O" Street Temporary Road Typical Cross Section. Replace with a note specifying "Temporary Surfacing" for the temporary road.

Delete the reference to item number 6 at the temporary sidewalk in the typical section for the "O" Street Temporary Road Typical Cross Section. Replace with a note specifying "4" Thick Temporary Asphalt for Transitions and Sidewalks" for the construction of the temporary sidewalk.

9. Refer to the Plans, Summary of Quantities Sheet 2-S1

Revise the roadway quantity for Pavement and Sidewalk Removal to 2,452 CY and the total quantity for the Pavement and Sidewalk Removal to 2,551 CY.

Revise the quantity for Asphaltic Concrete Surface Course for Arterial Streets to 47 Tons.

Revise the quantity for Temporary Surfacing to 3,240 SY.

Add a quantity for "Temporary Asphalt for Transitions & Sidewalks" of 197 Tons to the Concrete Pavement & Surfacing Group.

10. Refer to the Plans, Summary of Quantities Sheet 2-S3

Add a quantity for "Temporary Shoring at Sta. 1215+65" of 1 Lump Sum to the Miscellaneous Group.

Add a quantity for "Temporary Shoring at Sta. 1216+65" of 1 Lump Sum to the Miscellaneous Group.

Add a quantity for "Temporary Shoring at Sta. 1220+35 – Sta. 1225+30" of 1 Lump Sum to the Miscellaneous Group.

11. Refer to the Plans, Phasing Sheet 2-P2

Add a build note to provide Temporary Shoring at Sta. 1215+65 left to accommodate construction of the new water main while maintaining vehicular traffic along "O" Street.

Add a build note to provide Temporary Shoring at Sta. 1216+65 left to accommodate construction of the new water main and 72" storm sewer pipe while maintaining vehicular traffic along "O" Street.

Add a build note to provide Temporary Shoring at Sta. 1220+35 to Sta. 1225+30 Right to accommodate construction of the new 24" storm sewer pipe while maintaining vehicular traffic along "O" Street and pedestrian traffic along the south side of "O" Street to maintain access to the existing businesses. The temporary shoring at this location shall maintain vehicular traffic and pedestrian traffic along the sidewalk on the south side of "O" Street at all times. The design and construction of the temporary shoring shall also take into consideration the vehicular access to the properties along the south side of "O" Street and shall comply with all requirements outlined in the Special Provisions regarding access to these properties.

Add the three Temporary Shoring Quantities/Pay Items described above to the summary of Phase I Quantities shown on this sheet.

12. Refer to the Plans, Phasing Sheet 2-P3

Delete the note that refers to Asphaltic Concrete Surface Course for Arterial Streets to provide transitions onto the existing pavements at the west and east ends of the temporary road. Replace the note with the following:

"Construct Temporary Asphalt for Transitions and Sidewalks to provide transitions onto the existing pavement at "O" Street".

In the summary of Phase II Quantities, delete the quantity for "Asphaltic Concrete Surface Course for Arterial Streets" of 150 Tons and replace with "Temporary Asphalt for Transitions & Sidewalks" of 197 Tons. This quantity includes both construction of the transitions and temporary sidewalk.

13. Refer to the Plans, Phasing Sheet 2-P6

Delete the Pavement Removal Tab. The pay item for the temporary road has been revised by this addendum from Asphaltic Concrete Surface Course for Arterial Streets to Temporary Surfacing. In accordance with the Special Provisions and this Addendum, removal of the temporary road surfacing and transitions is subsidiary to the cost for the Temporary Surfacing or the Temporary Asphalt.

14. Refer to the Plans, Temporary Road Construction, Sheet 11

Revise the Build Tab for "Asphaltic Concrete Surface Course for Arterial Streets" to read "Temporary Surfacing". Revise the pay unit from Tons to Square Yards and revise the pay quantity to 2,840 square yards.

15. Refer to the Plans, "O" Street Drainage, Sheet 15

Add the following sentence to the note referring to the 24" storm sewer pipe regarding shoring.

“Refer to the Special Provisions and Phasing Plans for description and payment of temporary shoring required to build the 24” storm sewer pipe”.

16. Refer to Nebraska Department of Roads 2007 Standard Specifications for Highway Construction (NDOR)

The following NDOR Sections/Subsections have been amended as per the attached NDOR documents.

NDOR Section 1002 “Portland Cement Concrete”

NDOR Section 1004 “Portland Cement”

NDOR Section 1005 “Water for Concrete”

NDOR Section 1006 “Calcium Chloride”

NDOR Section 1007 “Chemical Admixtures”

NDOR Section 1008 “Fly Ash”

NDOR Section 1009 “Silica Fume”

NDOR Section 1012 “Liquid Membrane-Forming Compounds for Curing Concrete”

NDOR Section 1013 “Bituminous Liquid Compounds for Curing Concrete”

NDOR Section 1014 “Joint Sealing Filler”

NDOR Section 1027 “Deformed Metal Center Joint and Metal Keyway”

NDOR Section 1033 “Aggregates”

NDOR “Ground Granulated Blast Furnace Slag (GGBFS)”

The following questions were submitted to the Purchasing Department regarding this project:

1. Question: Can the Contractor use the Temporary Surfacing specification and pay item in lieu of the Asphaltic Concrete Surface Course for Arterial Streets for the temporary road?

Response: Addressed as part of this addendum.

2. Question: The Special Provisions have a section on Temporary Shoring for utility construction but there is not any bid items for Temporary Shoring on the Bid Schedule. Should a Temporary Shoring bid item be added?

Response: Addressed as part of this addendum.

3. Question: Can the Contractor use left over concrete pipe or concrete pipe that was in service for only a short duration on this project?

Response: No, the Contractor shall bid the project based upon all new material with material certifications as required by the specifications.
